X. ASSESSMENT

Definition:

Intake and objective assessment is the primary point of entry for customers seeking services at all Atlantic/Cape May County One-Stop sites.

Objectives Assessment means an examination of the employability preparedness, transferable skills, capabilities, needs, and vocational potential of a participant, and is to be used to develop an Individual Employment Plan (IEP) and employment goal. Such assessment is customer-centered and a diagnostic evaluation of a participant's employment barriers, taking into account the participant's family situation, work history, education, basic and occupational skills, interest and aptitudes.

Methods of Objective Assessment:

Each One-Stop Partner entity shall choose the most appropriate means to measure skills, abilities, attitudes, and interests of the participants.

Methods may include, but are not limited to, use of self-appraisal, inventories, structured interviews, and aptitude and basic skills tests.

Self-Appraisal:

To a large degree, maximum success in choosing a satisfying and lasting career will depend on how well a person makes a self-inventory by evaluating one's employability preparedness, skills, abilities, and interests. Therefore, a self-assessment inventory will be available for all participants at all Atlantic/Cape May County One-Stop sites.

Purpose of Assessment:

Objective assessment will enable a customer to discover job interests and become aware of how language, academic levels, and job skills will affect one's career direction. In addition, such assessment will identify the needs of a customer in overcoming any barriers to employment.

XI. METHODS OF REFERRAL

Referral of customers among partner agencies will be done through various methods until such time as all partners share a common data and communication system enabling automated referrals. Current referral methods include telephone, fax, e-mail, scanning, and mail. Referrals should include the basic client information common to all partner agencies as well as any pertinent confidential information accompanied by the Release of Information form. The basic information form can be used until automated sharing of data is available.

XII. CUSTOMER SATISFACTION

The Atlantic/Cape May County One-Stop Partnership is committed to continuous improvement guided in part by measurement of customer satisfaction with our performance. We serve two external customer groups: job seekers and the business community. Based on the State's promise that it will develop a system to manage administrative data that "SkillsNet" will

offer comprehensive information for performance management and vendor evaluation, the Atlantic/Cape May County One-Stop Partnership assumes responsibility for determining levels of customer satisfaction with local, on-site activities.

Partners agree to:

- Measure participation levels by recording numbers of customers entering and completing activities by site.
- Survey job seeker satisfaction by requesting completion of the Job Seeker Customer Satisfaction Survey upon an individual's completion of each level of service, i.e. core, intensive, and/or training by site.
- Survey employer satisfaction by requesting completion of the Employer Customer Satisfaction Survey after the hiring of a One-Stop referral or being provided with any other service.
- Maintain separate tallies of the results of surveys in each category; and to provide these data, and participation counts monthly to the OSO for compilation, analysis, and distribution among the partners.
